

Safe and sound™ WITH 9 MM SecuriBlank® Quiet

Simunition® is the world leader in safe, realistic and interactive short range training ammunition. Simunition® family of non-lethal training cartridges have been in use worldwide by military, law enforcement and approved range members for over 20 years. The SecuriBlank® Quiet, our most recent training cartridge, sets a new standard as the world's safest, soundless blank cartridge.

The SecuriBlank® Quiet Blank round allows for training at extreme close ranges without the effects such as muzzle blast and excessive noise levels. This environmentally friendly cartridge, free of any heavy metals is safe for you and the environment. With no gas discharge, our SecuriBlank® Quiet can be shot at very close range without damaging human tissue or even paper. It is truly the safest and cleanest blank available today. The SecuriBlank® Quiet will revolutionize the way Concealed Carry Weapon Instructors conduct training in the classroom.

Realistic handgun retention drills with 360 degrees of freedom of movement

In classroom, for firearms familiarization, safe weapon handling

For extreme close proximity interactive scenarios

The SecuriBlank® Quiet has many impressive features:

- Non-toxic primer
- No flash or noise, only the sound signature of the weapon cycling
- Cleaner than conventional blanks, no fouling of the weapon
- Safer blank, no unburnt propellant, no ejected particles
- Realistic recoil
- Available in 9 mm in 2013; 5.56 mm in 2014

Advantages:

- Minimal protective equipment, only range certified eye protection required
- No Blank Firing Attachment (BFA) required
- Convenient for training any time, any place, indoors and outdoors
- Affordable
- Simple and fast clean up, this round is not required to be handled as hazardous waste
- SecuriBlank® Quiet is distributed worldwide exclusively through the Simunition® network

Functions in Simunition® Weapon conversion kit:

- User-friendly installation; no tools required for temporary conversion
- Safe design helps preclude the firing of live, lethal ammunition
- Single shot mode

The SecuriBlank® Quiet is ideal for various types of training:

- In classroom, for firearms familiarization, safe weapon handling and realistic handgun retention drills virtually anywhere with 360 degrees of freedom of movement
- For extreme close proximity, dynamic force-on-force training exercises and interactive scenarios
- For ground fighting techniques
- With interactive video-based simulator systems
- In sensitive areas, where only the SecuriBlank® Quiet can be fired for safety reasons.

Simunition® FX® Scenario Instructor and Safety Certification Course

- Highly qualified professional trainers;
- Offered worldwide: check our website at simunition.com for more information on available courses.

Safe and sound™

WITH 9 MM SecuriBlank® Quiet

COMPONENTS	
Cartridge case	Copper alloy
Sabot (Light Blue)	Polymer
Primer	Small pistol TOXFREE® primer
Propellant	Double-base smokeless powder
BALLISTIC DATA	
Muzzle energy	0 Joule (0 ft.-lb.)
Noise level (varies with weapon)	Noise level from cycling of weapon only (not from the cartridge)
TERMINAL EFFECT	
Lethality	No perforation of witness paper at point blank
USE	
General	For use with Simunition® conversion kit only
Operational temperature range	-8° to 40° C (18° to 104° F)
Mandatory safety equipment	Range certified eye protection required
Firing modes	Single shot only
Weapons	Please refer to www.simunition.com for a detailed listing of all available models
STORAGE	
Recommended storage	Cool, dry environment, 25° C (77° F) max.
Shelf life	Five years
Warranty	One year
Packaging	500 rounds/case (commercial pack)

For a blank cartridge with higher noise level, please refer to our website at simunition.com for our SecuriBlank® Loud (PN 5306000).

US Patent 5,677,505; 6,439,123. Canadian Patent 2,419,861. Patented or Patents Pending in numerous other countries.

Manufacturer's policy requires users to wear approved eye protection when using SecuriBlank® Quiet cartridges. It is the user's responsibility to confirm their permitted noise levels and hearing protection guidelines within their respective jurisdictions when using SecuriBlank® Quiet cartridges. When in doubt, use appropriate hearing protection. Refer to www.simunition.com for additional information.

Dynamic force-on-force training exercises

No unburnt propellant

Shot here on tissue, no flash, no ejected particles
