

PEZT Co.® MBD

> MECHANICAL BREACHING DOOR

LIVE TRAINING SOLUTIONS

PEZT Co.® Mechanical Breaching Door is a device designed for training military personnel in mechanical breaching operations.

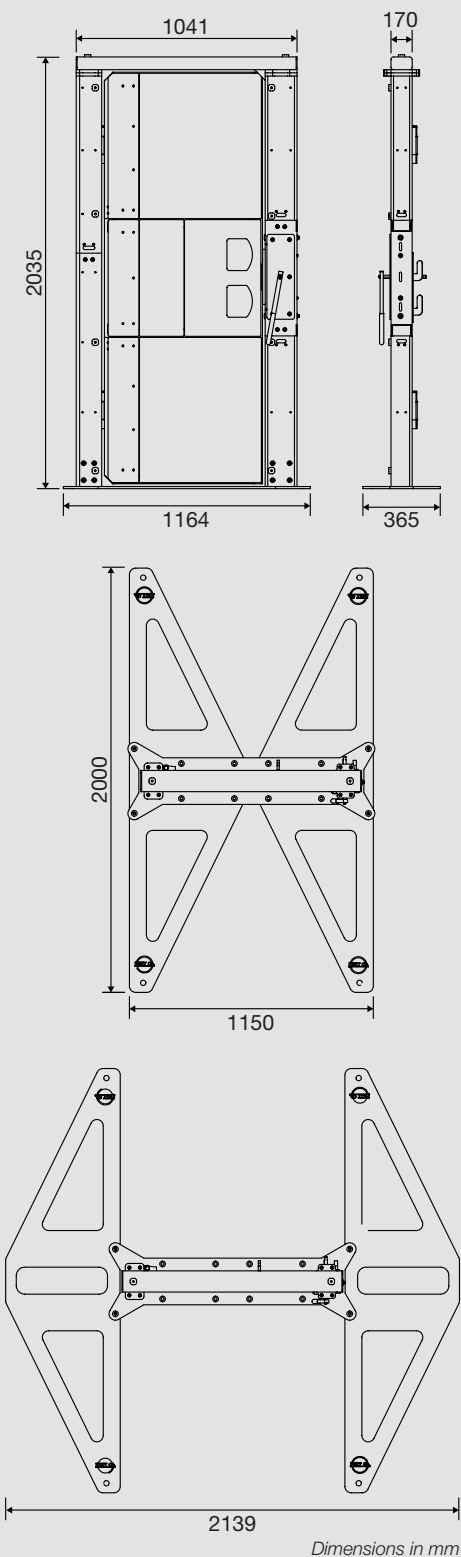

The door is made of a steel frame with ballistic plate inserts; it can be disassembled into pieces of up to 25 kg for hand transport according to regulations.

Breaching resistance is generated by both the lock and the optional addition of wooden profiles inserted at the rear to simulate door locking.

It can be used in a stand-alone configuration or fixed to the floor/wall by utilizing the various arrangements on the frame or base plate.

PEZT Co.® Mechanical Breaching Door can be integrated into:

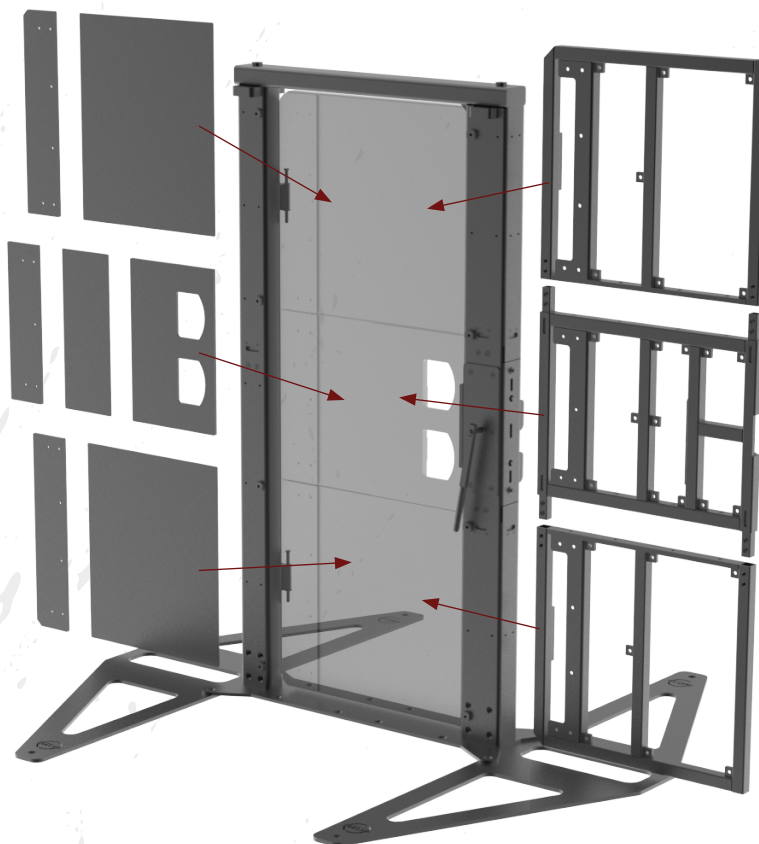

- > RRW - SKILL HOUSE;
- > MSH - SHOOTING HOUSE;
- > TWS® - TRAINING WALL SYSTEM;
- > FAST ROPE TOWER.
