

PEZT Co.[®]

> PORTABLE HEATER

PEZT Co.[®] Portable Heater for DRASH[®], suitable for XYTEX[™] fabric. Due to its light weight, rigid transport wheels, sturdiness and reliability it can be taken anywhere. The heater tank has a capacity to ensure continuous use without Diesel refueling for about 12 hours, operating with intensity voltages of 230 VAC at 50 Hz single phase. It is capable of generating 95,000 BTUs per hour of warm, dehumidified and totally clean air.

FEATURES

The system is connected to the tent by flexible pipes that distribute hot air and it's equipped with an internal thermostat. The electronic carbon monoxide (CO) and carbon dioxide (CO²) sensor constantly monitors (air sampling every second) the air quality inside the room.

The alarm levels of the sensor are:

- > Alarm threshold for CO = 25 ppm $\pm$ 1 ppm;
- > Alarm threshold for CO² = 1,500 ppm $\pm$ 1 ppm.

The extensible corrugated pipe, supplied with the heater, is connected to the tent and hot air is distributed through the inner plenum (item supplied with the tent).

TECHNICAL SPECIFICATIONS

- > Combustion: indirect;
- > Maximum thermal power: 32.0 Kw – 27,534 kcal/h – 116.803 BTU/h;
- > Operational temperature from: -20°C;
- > Air capacity: 1.950 m³/h;
- > Fuel consumption: 2.7 kg/h;
- > Voltage power supply: 230 v;
- > Frequency: 50 Hz;
- > Electrical power: 370 w;
- > Tank capacity: 42 l;
- > Sound level at 1 m: 72.0 dBA;
- > Dimensions (l x w x h): 1215 mm x 440 mm x 670 mm;
- > Weight: 68.5 Kg.
